

FORENSIC FIRE SCENE RECONSTRUCTION

March 18-19, 2008

Honolulu, Hawaii

Ala Wai Golf Course Club House
404 Kapahulu Avenue, 2nd Floor
Honolulu, HI 96815
(808) 733-7380

- ✓ Accurate and defensible science-based reconstruction of fire scenes
- ✓ Interpretation of scene fire patterns using basic concepts of fire dynamics
- ✓ Analysis and hypothesis support through systematic data and documentation collection approach
- ✓ Advanced computer fire modeling application use and limits
- ✓ Hands-on examination of fuel materials

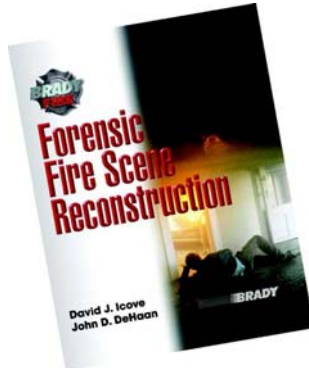

Presented By:

International Association of Arson Investigators
IAAI Hawaii Chapter
and
SFPE Hawaii Chapter

The quality and content of the seminar was excellent.

*...Keith Ansett
Special Investigator*

This 2-day Forensic Fire Scene Reconstruction Seminar is an excellent opportunity to learn scientific approach to reconstructing it to determine fire dynamics and fire pattern analysis

and review the up-to-date analyzing a fire scene and how the fire developed through basic

Dynamic speakers and authors, Dr. John DeHaan, author of Kirk's Fire Investigation and Dr. David Iovce, co-Author with Dr. DeHaan of Forensic Fire Scene Reconstruction, show you how to apply engineering principles and practice to assess and investigate the impact of fires. This concept is essential for comprehensive and accurate fire scene investigation.

Professions that would benefit from this informative seminar include: Fire Investigators, Fire Protection Technicians, Consultants and Engineers, Bomb and Arson Specialists, Coroner Investigators, Arson Prosecutors, Insurance and Fire Litigation Attorneys, Safety Professionals and Engineers.

This seminar will be based on the textbook Forensic Fire Scene Reconstruction. Dr. DeHaan's and Dr. Iovce's presentations will be taken from topics and issues mentioned in the textbook.

SUGGESTED ACCOMODATIONS

Ohana Waikiki West - formerly Outrigger West
2330 Kuhio Avenue
Honolulu, Hawaii, 96815-2997
Ph: 808-922-5022
\$99.00/nt is available. Please contact Glenn Solem at
(808) 384-7926 to make your reservations.

SEMINAR HIGHLIGHTS

- Registration Opens March 18 at 7:30am
- Seminar ends March 19 at 5:00 pm
- Breaks and Lunches
- Seminar Materials provided
- Opportunity for 16 tested training hours
